SUBJECT: Licensed Assisted Access Change Requests

DATE: 09 February 2016

Dear Dino and Satoshi,

IEEE 802 would like to thank 3GPP TSG RAN for the liaison that included the approved baseline change requests (CRs) implementing the LAA feature in the 3GPP specification.

In taking action regarding the opportunity in the liaison to provide feedback on the CRs, IEEE 802 would like to inform 3GPP that review of the CRs has begun, and IEEE 802 plans to approve a liaison response at the March 13-18, 2016 IEEE 802 meeting.

Regards,

/s/ Paul Nikolich
