ITU-T SG13 “Future networks including cloud computing, mobile and next-generation networks” thanks 3GPP for the input to our referencing Recommendations of Release 1999, Release 4, Release 5, Release 6, Release 7, Release 8, Release 9 and Release 10 in ITU-T Recommendations Q.1741.1, Q.1741.2, Q.1741.3, Q.1741.4, Q.1741.5, Q.1741.6, Q.1741.7 and Q.1741.8, respectively, and hopes to continue in the same way for the development of the next Release. We have updated the work programme for Question 4/13 (Identification of evolving IMT systems and beyond) and have started with referencing of 3GPP Release 11. Our intention is that we will base our referencing on the different SDOs’ specifications derived from 3GPP Specifications. SG13 would appreciate if these SDOs’ specifications refer to the same version of the 3GPP specifications. Our goal is to have the referencing Recommendation for Release 11 ready in Q4 2013.

To fulfill this goal it is necessary that we receive information from you as early as possible and latest within the deadline indicated above. If possible, please forward the results in the format specified in Attachment.

SG13 asks 3GPP to provide us with new timing information of Release 11 in case the deadline indicated above could not be met.

For further information please contact Mr Tong Wu (wutong@chinatelecom.com.cn), Editor of Q.1741.9 in Question 4 of the ITU-T SG13.
