Title: Work Item Description for MS Conformance test for
                   GERAN interface evolution
Document for: Decision

Work Item Description

Title

Work Item Description for MS Conformance test for GERAN interface
                    evolution

1   3GPP Work Area

X	Radio Access
	Core Network
	Services

2   Linked work items

- GERAN overall description
- GERAN header adaptation
- GERAN radio access bearer design
- GERAN user / control plane
- GERAN RR
- Iu rg
- Voice over GERAN PS and CS concept
- Narrow band speech realization
- GERAN Security
- BTS Conformance test for GERAN interface evolution

3   Justification

The GERAN work item will provide a platform to provide the four UMTS bearer classes:
conversational, streaming, interactive and background. This includes IP end to end voice and
multimedia services and provides the possibility to connect the 200kHz radio access to a 3G
core network.

4   Objective

The GERAN work item will provide:

- IP Multimedia (real-time end-to-end IP)
- Alignment with UMTS/UTRAN architecture, bearer services and QoS handling
- Spectrum efficiency and performance improvements (multiplexing scenario 1-2 as
  described in the system concept document)
- Specification flexibility for future enhancements

5   **Proposed building blocks and work tasks:**

Building Block	Work Task
MS conformance test for GERAN radio interface evolution	• MS test specifications

6   **Service Aspects**
Services provided to UTRAN will be provided by GERAN.

7   **MMI-Aspects**
None

8   **Charging Aspects**
None

9   **Security Aspects**
The same or at least similar security will be provided as for UTRAN.

10   **Impacts**

Affects:	SIM	ME	AN	CN	Others
Yes		X	X		
No	X				
Don't know				X	

11   **Expected Output and Time scale (to be updated at each plenary)**
The time plan for this work item is documented in 50.099 (GERAN project plan)

12   **Work item raporteurs**

Ericsson – Frank Mueller

13   **Work item leadership**

TSG GERAN

14   **Supporting Companies**
Alcatel, AT&T, Ericsson, Lucent, Nokia, Motorola, Nortel, Siemens

15   **Classification of the WI (if known)**

	Feature (go to 15a)
X	Building Block (go to 15b)
	Work Task (go to 15c)

15a   The WI is a Feature: List of building blocks under this feature

15b   The WI is a Building Block: parent Feature

GERAN radio interface evolution

15c   The WI is a Work Task: parent Building Block

(one Work Item identified as a building block)
