Title: Work Item Status Sheet for R99 / Call Forwarding Enhancements
Agenda item: 5.2.2
Document for: Decision

Work Area / Item:		Call Forwarding Enhancements			
Affects:	UE/MS:	CN: X	UTRAN:	Compatibility Issues:	Yes: X No:
Expected Completion Date:		TSG CN #07, March 2000			
Services impacted:		Call Forwarding			
Specifications affected:		TS 23.018; TS 23.079; TS 29.002; TS 29.078			
Tasks within work which are not complete:		<ul style="list-style-type: none"> ➤ Proposed changes to TS 29.002 to support Long Forwarded-To-Numbers need further analysis. ➤ Cross-phase compatibility handling in TS 23.018 & TS 23.079 needs to be specified. ➤ Minor amendments needed to TS 23.018 & TS 23.079 to reflect the fact that the Forwarded-To-Number is not necessarily an E.164 number. ➤ The CAP protocol needs enhancement to allow the transport of long FTNs 			
Consequences if not included in Release 1999:		Long forwarded –to-numbers will not be supported			
Accepted by TSG#		for late inclusion in Release 1999:
