### ***Excerpts from N4 Status Report (NP-000281)***

I.G.C – Security (Agenda 7.8)

The SA/CN#06 Plenary assigned N4 to complete the MAP/GTP security for the Plenary #07. This was partially full filled. N4 completed the MAP Security Layer 3 CR with some open comments to be addressed as a successive CR to be submitted to the N4#03 meeting. N4 also discussed the MAP based Security Layer 1 & 2 for the administration and distribution of security keys. Before N4 can progress the work it needs to have further requirements from S3. Liaison Statements has been sent to S3 to retrieve these requirements.

N4 has not progressed the work on GTP Security since it is still waiting for the S3 requirements. Again a LS has been sent to S3 to remind an open standing LS from N4 (sent out as N2, predecessor of N4).

The MAP Security Layer III CRs are provided in Tdoc *NP-00xxx* and is submitted for ratification by the CN Plenary.
