1. Overall Description:

SA5 would like to thank CN5 for the OSA presentation made by its vice-chair (Chelo ABARCA) at SA5 #22.

SA5 noted the inclusion of account management and charging SCFs in the OSA presentation. SA5 also noted that the OSA framework contains APIs for fault, performance and other management areas.

SA5 is responsible for co-ordinating all telecom management (including charging and service operations management) aspects within 3GPP, ensuring the consistency of all management solutions. SA5's current specifications cover Fault (32.111-series), Configuration (32.600-series), Performance (32.400-series), Subscription (32.140) and Charging (32.200-series) Management.

2. Actions to CN5:

1. CN5's views on the relevance of these specifications to its work is invited.
2. In the presentation the location of information in the areas of account management and charging was identified. SA5 would also request that CN5 identify the location of other relevant information in their specifications for the above areas.

3. Date of Next SA5 Meetings:

SA5#23	15 -19 Oct 2001	Sundsvall, Sweden	Telia
SA5#24	26 – 30 Nov 2001	Cancun, Mexico	NA friends
SA5#25	14-18 Jan 2002	Sophia Antipolis, France	ETSI
