1. Overall Description:

SA1 would like to thank TSG CN for their LS S1-030007 (=NP-020672) "LS on SS barring for SMS transfer over GPRS".

SA1 is happy to hear, that the specification of SS barring of MO SMS and MT SMS through an SGSN seems to be feasible within the timeframe of release 6.

SA1 confirms that SA1 would like to see this feature implemented in Release 6.

In the LS SA1 was asked to:

1. confirm to CN WG1 and CN WG4 that it is acceptable to specify the **invocation** of SS barring of SMS transfer (both MO and MT) in the PS domain as part of UMTS Release 6.

SA1's answer: **YES**, this is acceptable

2. TSG CN ask SA WG1 to confirm to CN WG1 and CN WG4 that it is acceptable not to pursue the specification of **control** of SS using the SGSN as a relay between the UE and the HLR.

SA1's answer: **YES**, this is acceptable

2. Actions:

To TSG CN, CN1, CN4 group.

ACTION: SA1 asks the addressed WGs to take into account the answers given above in their work.

3. Date of Next TSG-SA1 Meetings:

SA1#20 07 - 11 April 2003,

South Korea, Samsung

SA1 SWGs #21 12 - 16 May 2003,

SanDiego,USA, North American Friends
