**12<sup>th</sup> - 14<sup>th</sup> March 2003. Birmingham, U.K.**

**NP-030060**

**Source:** CN1  
**Title:** Support of the Multimedia Broadcast Multicast Service (MBMS) in CN protocols.  
**Agenda item:** 9.8  
**Document for:** Approval

---

**3GPP TSG-CN1 Meeting #28**  
**Dublin, Ireland, 10 – 14 February 2003**

***Tdoc N1-030275***

**Source:** 3  
**Title:** MBMS WID Update  
**Agenda item:** 8.2  
**Document for:** Approval

---

## **Introduction**

Attached is an updated version of the MBMS WID. It has been updated to reflect the new SA2 Technical Specification defined for MBMS, along with changes to the time lines.  
It is proposed to submit the WID to TSG CN#19 for approval.

## Work Item Description

### Title

Support of the Multimedia Broadcast Multicast Service (MBMS) in CN protocols.

#### 1 3GPP Work Area

	Radio Access
X	Core Network
	Services

#### 2 Linked work items

*Multimedia Broadcast Multicast Service Architecture, [32703](#) –SA  
~~Enhancement of Broadcast and Introduction of Multicast Capabilities – RAN~~  
[Introduction of MBMS in RAN, 2481](#)  
[Support of MBMS in GERAN, 50085](#)*

#### 3 Justification

The specification of MBMS stage 1 is complete and stage 2 is well advanced. The work should now be started in CN groups to support this functionality.

#### 4 Objective

The objectives of this work item:-

- To define and develop the Radio layer 3 and CN signalling protocols to support MBMS to facilitate broadcast of multimedia services in a wireless network
- To allow handover between RNS's of terminals currently receiving an MBMS transmission.
- To ensure efficient use of network resources when sending multimedia information to multiple users.

#### 5 Service Aspects

*MBMS should allow users to select one of a number of broadcast/multicast information sources, and to share with other users the network resources used to deliver that information.*

*Service level aspects are agreed in TS 22.146.*

*Architectural aspects are covered in ~~TR 23.846~~. [TS 23.246](#).*

#### 6 MMI-Aspects

*None – out of scope of this work item.*

#### 7 Charging Aspects

*The ability to charge for access to, and use of, MBMS services shall be supported.*

#### 8 Security Aspects

*Any MBMS solution must provide a secure procedure to gain access to MBMS information.*

#### 9 Impacts

<b>Affects:</b>	<b>USIM</b>	<b>ME</b>	<b>AN</b>	<b>CN</b>	<b>Others</b>
-----------------	-------------	-----------	-----------	-----------	---------------

**10 Expected Output and Time scale (to be updated at each plenary)**

The results of this Work Item shall be provided in a Technical Standard or CRs to existing Technical Standards.

The following Work Plan is proposed.

New specifications						
Spec No.	Title	Prime rsp. WG	2ndary rsp. WG(s)	Presented for information at plenary#	Approved at plenary#	Comments
<a href="#">29.846</a>	<a href="#">Multimedia broadcast / multicast service: CN1 procedure description</a>	<a href="#">CN1</a>				
Affected existing specifications						
Spec No.	CR	Subject		Approved at plenary#	Comments	
24.008				CN # <del>2148</del>	Specialised PDP context for broadcast/multicast media streams is envisaged.	
29.060				CN # <del>2148</del>	Specialised PDP context for broadcast/multicast media streams is envisaged.	
29.061				CN # <del>2148</del>	Not defined what work is necessary yet.	
Affected existing or new IETF specifications						
Spec No.	CR	Subject		Approved at plenary #	Comments
