---

**1. Overall Description:**

TSG-SA4 has considered the Liaison statement from TSG-CN (S4-030455) on future codec with same SDU format as existing codecs.

TSG-SA4 cannot give any guarantee that any future codec would not have the same SDU format with any old codec. No restriction is documented in SA4 specifications currently and TSG-SA4 do not intend to introduce any such restriction. Therefore, for TrFO, it is recommended that lu UP framing protocol initialisation is required for a mid-call codec modification if the SDU formats of the new and old codecs are equal.

**2. Actions:**

**To TSG-CN and CN4 group.**

**ACTION:** SA4 kindly asks TSG CN and CN4 to take SA4's request into account when updating the TrFO CRs for a mid-call codec negotiation attached to original LS.

**3. Date of Next TSG-SA4 Meetings:**

TSG-SA4 Meeting #28 1<sup>st</sup> – 5<sup>th</sup> September 2003, Erlangen/Nuremberg (Germany)

TSG-SA4 Meeting #29 24<sup>th</sup> – 28<sup>th</sup> November 2003
