Subject: RE: Liaison Statement Concerning Requirements for all-IP  
Option for Release 2000

Dear Niels:

T1P1 fully supports the concept of an all-IP network architecture to be incorporated in requirements for 3GPP Release 2000. This should result in a common set of requirements for Release 2000 to cover the expected variety of radio access technologies including UTRAN, EDGE Phase II, etc.

T1P1 further encourages the necessary cooperation between SA1, SA2, SMG2 and TSG\_RAN, and will offer to host some of the resulting meetings in North America.

Best regards,
