<div align="center">

Release 1999 Submission form

</div>

Work Area / Item:		Support of soft handover during active compressed mode pattern				
Affects:	**UE/MS:**	**CN:**	**UTRAN: X**	**Compatibility Issues:**	**Yes:**	**No:**
Expected Completion Date:		**3/2000**				
Services impacted:		**Services using DCH**				
Specifications affected:		**25.433, 25.423**				
Tasks within work which are not complete:		- **Need to include compressed mode information also in Radio Link Setup and Radio Link Addition procedures.**				
Consequences if not included in Release 1999:		**It is impossible to add a radio link while a compressed mode pattern is active. CM must be deactivated before the RL addition, and then reactivated.**				
Accepted by TSG#	**for late inclusion in Release 1999:**
