Source :   **RAN WG3 Chairman**

Object: **R99 Cover Sheet:**

Proposal: The parameters should be defined by January 2000. If not completed, they should be removed for Release 99 and considered for Release 2000.

<p align="center">**Release 1999 Submission form**</p>

Work Area / Item:		DSCH (FDD+TDD) and USCH (TDD) on Iub				
Affects:	**UE/MS:**	**CN:**	**UTRAN: X**	**Compatibility Issues:**	**Yes:**	**No:**
Expected Completion Date:		**3/2000**				
Services impacted:		**All services mapped to DSCH**				
Specifications affected:		**25.433, 25.435?**				
Tasks within work which are not complete:		- **FDD: signalling of DSCH parameters need to be included in 25.433** - **TDD: signalling of DSCH parameters need to be included in 25.433 or 25.435. Due to harmonisation with FDD model, the reallocation of physical channels need to be supported on Iub.** - **Alignment of number of DSCHs supported to one UE. In case >1: need to solve how to signal TFI over Iub.**				
Consequences if not included in Release 1999:		**DSCH is not supported on Iub.**				
Accepted by TSG#	**for late inclusion in Release 1999:**
