Release 1999 Submission form

Work Area / Item:		DSCH (FDD+TDD) and USCH (TDD) on Iub			
Affects:	UE/MS:	CN:	UTRAN: X	Compatibility Issues:	Yes: No:
Expected Completion Date:		3/2000			
Services impacted:		All services mapped to DSCH			
Specifications affected:		25.433, 25.435?			
Tasks within work which are not complete:			<ul style="list-style-type: none"> - FDD: signalling of DSCH parameters need to be included in 25.433 - TDD: signalling of DSCH parameters need to be included in 25.433 or 25.435. Due to harmonisation with FDD model, the reallocation of physical channels need to be supported on Iub. - Alignment of number of DSCHs supported to one UE. In case >1: need to solve how to signal TFI over Iub. Input needed from R1 and R2. 		
Consequences if not included in Release 1999:			DSCH is not supported on Iub.		
Accepted by TSG#		for late inclusion in Release 1999:
