Source :   **RAN WG1+WG2+WG3+WG4 Chairmen**

Object: **R99 Cover Sheet: CPCH (FDD only)**

The following item is proposed to be still included in Release -99.
To be included as optional for UE in Release-99

Release 1999 Submission form

Work Area / Item:		CPCH (Common Packet Channel)				
Affects:	**UE/MS: X**	**CN:**	**UTRAN: X**	**Compatibility Issues:**	**Yes:**	**No:X**
Expected Completion Date:		**3/2000**				
Services impacted:		**Packet data services in uplink**				
Specifications affected:		**25.211, 25.213, 25.214, 25.302, 25.303, 25.321, 25.331, 25.435, 25.425, 25.433, 25.423, 25.101, 25.104**				
Tasks within work which are not complete:		**The issues with respect CPCH channel monitoring and possible use of channel assignment needs to be concluded. Testing aspects (functional or performance or both), CPCH interlayer model, Support in Iur & Iub & Admissing control to be solved.**				
Consequences if not included in Release 1999:		**None (Has been suggested to be more efficient than existing solutions (RACH or DCH) for uplink packet data operation in certain scenarios than existing solutions)**				
Accepted by TSG#	**for late inclusion in Release 1999:**
