Title: Contribution to ITU-R WP8F on the update of Recommendation ITU-R M.1457 to Revision 3
Document for: Approval
Agenda Item: 7.5

[ITU Member]¹

ON THE UPDATE OF RECOMMENDATION ITU-R M.1457 TO REVISION 3

As announced in the eight meeting of ITU-R WP 8F in Ottawa, 3GPP TSG RAN intend to update Sections 5.1.2 & 5.3.2 (references to the Standards) of Recommendation ITU-R M.1457 in year 2002, without any modification to the Overview parts (Sections 5.1.1 & 5.3.1), and still within the scope of the current Global Core Specifications (GCS). Therefore, based on section 3 of Circular Letter 8/LCCE/95, and in line with the discussion in ITU-R WP 8F#8, this contribution contains the summary of the proposed changes, including the rationale (Attachment 1), and a self-declaration that those changes are consistent with Sections 5.x.1 and the GCS (Attachment 2).

Furthermore, each OP participating in 3GPP will provide the updated references for Section 5.1.2 and 5.3.2 by 1st April 2003, together with the required certifications of references and transposition (i.e., the certification that the standards incorporated by reference into the revised and to-be-published Recommendation ITU-R M.1457 correspond to the set of specifications agreed by the SDOs to be transposed into standards, as well as the certification that the standards are consistent with the relevant Section 5.x.1 of Recommendation ITU-R M.1457 and the Global Core Specification as presented by WP 8F to SG 8).

3GPP TSG RAN would like to continue the successful dialog with ITU-R WP 8F.

¹ This contribution was developed in 3GPP TSG RAN.

Attachment 1

Summary of the proposed update, including the rationale

The purpose of the proposed changes is to align Sections 5.1.2 & 5.3.2 to the most up to date material; as such, only the version numbers, the issued dates, and the references (hyperlinks) in tables contained in Sections 5.1.2 & 5.3.2 of Recommendation ITU-R M.1457 are updated, without any modification to the Overview parts (Sections 5.1.1 & 5.3.1), and still within the scope of the current Global Core Specifications (GCS); also titles and synopsis in Sections 5.1.2 and 5.3.2 remain identical to the ones in the current Revision of Recommendation ITU-R M.1457.

Attachment 2

Self-declaration that the proposed amendments are consistent with Section 5.x.1, and the GCS

3GPP TSG RAN confirm that the proposed update is consistent with Sections 5.1.1, 5.3.1, and the GCS.
