Progress Report since the last TSG (for all involved WGs):
At RAN3#37, several contributions have been handled: requirements have been agreed upon, two high-level solutions for Management activation taking into account the Work Item Description have been identified.

List of Completed elements (for complex work items):
   ??

List of open issues:
   ?? Mobility via Iur: Actual usefulness of performing a Trace activated via Management in a DRNC for a given Subscriber or Equipment has been questioned and needs to be agreed upon.
   ?? Solution 2 for Management Activation: Feasibility in a multi-vendor environment needs to be assessed (waiting for an answer LS from SA5).

Estimates of the level of completion (when possible):   15 %

WI completion date review resulting from the discussion at RAN WG3: RAN #23
