1. Overall Description:

T1 thanks RAN1 and RAN2 on their liaison statements (R1-030953, R2-032042 and R2-032258) on addition of 768kbps bearer to TS 34.108.

RAN2 final recommendation was to add the 768kbps bearer to 34.108 Rel-5. T1 has agreed with RAN2 recommendation but would like to point out that as there currently is no Rel-5 version of 34.108, the bearer has actually been added to Annex B of 34.108 Rel-4, containing RAB combinations for Rel-5.

2. Actions:

None

3. Date of Next TSG-T1 Meeting:

TSG-T1 #22 2nd – 6th February 2004 Hyderabad, India
