Attachments:

1. Overall Description:

RAN WG4 would like to inform GERAN WG1 that RAN WG4 has started working on radio requirements for Remote Electrical Tilt (RET) equipment.

Some of the radio requirements to be developed (e.g. Spectrum Emission Mask) may have an impact on GSM requirements as well and would need to be checked by GERAN WG1. RAN WG4 will communicate the outcome of the work on RET radio requirements to GERAN WG1 for comments.

2. Actions:

ACTION: None.

3. Date of Next TSG-RAN4 Meetings:

TSG-RAN4#34	14 - 18 Feb 2005	Scottsdale, US
TSG-RAN4#35	9 - 13 May 2005	EU
