Title: Draft LS on Removal of Synchronisation Case 3 in TDD

TSG RAN WG1 would like to inform RAN WG2, RAN WG3 and SMG2 that it approved the CRs for removal of the synchronisation case 3 in TDD mode from the set of RAN WG1 specifications. Since this decision has an impact on other TSG RAN and SMG2 specifications as well, RAN WG1 would like to ask to take these changes into account when updating the sets of specifications within RAN WG2, RAN WG3 and SMG2.
