

Berlin, Germany, August 22 ~ 25, 2000

Agenda Item: AH21
Source: CWTS
To: TSG RAN WG1
Title: Dedicated Transport Channels for 1.28Mcps option
Document for: Discussion and Approval

1 Summary

This paper shows the figure of Mapping of PDUs onto the physical bearer for 1.28Mcps TDD. It is different from that of 3.84Mcps TDD according to the subframe segmentation before the physical channel mapping.

2 Proposal

It's proposed to discuss and include the following text proposal into the clause 8.1 Transmitter Power Control of working CR of TS25.221.

----- Changes to working CR of 25.221begin -----

8.1 Dedicated Transport Channels

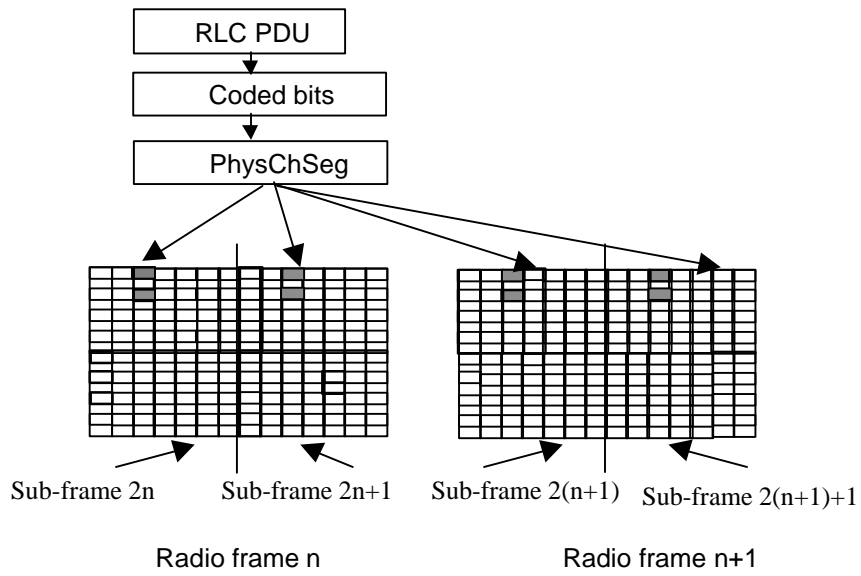

Figure : Mapping of PDU onto the physical bearer(TTI= 20ms)

----- Changes to working CR of 25.221 end -----
