

TSG-RAN Working Group 4 (Radio) meeting #3
Tokyo 29th- 31st March 1999

TSGW4#3(99)10.

Agenda Item: 7.9 : "R4.01 RF System scenarios"
Source: Alcatel
Title: Introduction of FDD/TDD system scenarios.
Document for: Approval

During the last meeting TSGWG4#2, Alcatel has presented the document (99)-052 on the coexistence between TDD and FDD modes in the uplink-paired band for different scenarios. It was accepted to introduce the presented scenarios into the "R4.01 RF System scenarios" document provided that a formal proposal is done.

As soon as the meeting will accept this more formal proposal, Alcatel will send on the reflector a first draft of system scenarios for comments. The goal is to have agreed scenarios by the WG4#4 meeting.
