Technical Specification Group Services and System Aspects **TSGS#2(99)052**
Meeting #2, Fort Lauderdale, 2-4 March 1999

Source: Convenor for WG2 (Yukio Hiramatsu, NTT)

Title: Terms of Reference for TSG-SA WG2 (Architecture)

Document for: Discussion

Agenda Item: 10 Approval of TSG Sub-Structure

"Definition, evolution and maintenance of the overall architecture including the assignment of functions to particular subsystems (e.g. UTRAN, CN, Terminal, USIM) and associated high level functional interactions identification of key information flows.

In co-operation with the other TSGs, define required services, service capabilities and bearers capabilities offered by the different subsystems, including Quality of Service requirements for access to both packet and circuit switched networks.

In addition the Architecture Working Group will consider how to carry out the technical co-ordination and overview role with the other 3GPP TSGs."
