To: TSG-T1
Title: Response to the TSG-T1 Liaison Statement on the Test Specification Structure and Schedule

TSG-SA WG4 has reviewed the list proposed by TSG-T1 for the terminal test specifications.

In response to the TSG-T1 request, the following table lists the relevant work items approved by TSG-SA WG4 and the expected availability dates for the work item deliverables (specifications).

Work Item	Specifications availability Dates
1. Mandatory Speech Codec for Narrowband Telephony Service	Baseline Specification: April 1999 Final Specification (TSG Approved): Dec 1999
2. Codec for low bit rate Video Telephony Service	Baseline Specification: April 1999 Final Specification (TSG Approved): Dec 1999

Note that TSG-SA WG4 intends to produce dedicated Test Sequences for the mandatory speech codec as part of the corresponding specifications. TSG-SA WG4 is not planning to develop dedicated test specifications (or Test Cases) making use of these Test Sequences.
