Document for: Discussion and approval

1. Introduction

In the last March Fort Lauderdale TSG meeting, all 3GPP TSGs jointly agreed to a mechanism of project co-ordination in the technical aspect. According to this mechanism, each WG of TSG-SA takes the responsibility of ensuring the consistency of the progress of all the projects pertinent to the WG's terms of reference across all TSGs. The TSG-SA requested that each WG of TSG-SA review its terms of reference so that the responsibility of cross-TSG project coordination in each WG's own designated aspect be adequately addressed in the terms of reference.

2. Discussion

This contribution proposes to add a phrase in TSG-SA WG5's terms of reference that will explicitly address the WG's responsibility of conducting the cross-TSG coordination according to the TSG-SA's generic responsibility.

3. Recommendation

It is proposed that the ToR of the TSGS5 be modified as follows:

Terms of Reference:

The WG will specify the management framework and requirements for management of the 3G system, delivering the architecture descriptions of the telecommunication management network (TMN) of the 3G system and coordinating across TSGs all relevant specification work pertinent to the 3G system telecom management.
