1.7 Interactions with other services

1.7.1 Multicall

See TS 22.135 [7].

1.87 Interworking considerations

Calls originating from outside the ISDN/PLMN can undergo call waiting at B.

A special in-band indication may be provided to the calling subscriber instead of the normal indication.

2.7 Interactions with other services

2.7.1 Multicall

See TS 22.135 [7].

2.87 Interworking considerations

The operation of this Supplementary Service is not affected by the nature (i.e. GSM or non-GSM) of the far end of the connection.

NOTE: In some networks the indication to the distant user about the held or retrieve state of the call may not be supported.
