Introduction

The SSG has been made aware of the 3GPP Evolution Ad Hoc. The Convener of the 3GPP Evolution Ad Hoc, Mr. Hiroshi Nakamura (NTT DoCoMo Europe) is also a Vice-Chairman of the SSG. Mr. Nakamura has informed the SSG that this 3GPP Evolution Ad Hoc has identified the SSG's Recommendation Q.1702 as relevant to its vision work and would like the opportunity to review this Recommendation with the aim of avoiding duplication and maintaining good collaboration between 3GPP and the SSG in this area.

The SSG supports this aim and wishes to provide to the participants of the 3GPP Evolution Ad Hoc a copy of ITU-T Recommendation Q.1702 in order to assist in this. Recommendation Q.1702 will be made freely available for the duration of the 3GPP Evolution Ad Hoc meeting. Please obtain it at <http://www.itu.int/ITU-T/imt-2000/topics.html>.

Please take note of the following rights and usage statement¹:

¹ The statement is as directed by TSAG for interaction outside the ITU. This statement may be directly accessed from the ITU web site for those with ITU TIES accounts at the following URL:
