TSG SA #22 has noted document 717 containing Annex 1: List of standards and/or specifications from 3GPP for electronic communications networks, services and associated facilities and services; in accordance with Article 17 of Directive 2002/21/EC

3GPP is a Global Standardisation Group producing Technical Specifications and therefore TSG SA does not feel that it is within the mandate of 3GPP to provide:

- Any interpretation of the articles and requirements that have been defined within the specific Directives and the associated Commission Decisions and Recommendations that have been published in the Official Journal of the European Community; or,
- Identify specific standards according to Article 17 (Directive 2002/21/EC) and the justifications given within the specific Directives; or
- Identify electronic communications networks, services and associated facilities and services; in accordance with Article 17 of Directive 2002/21/EC

3GPP TSG SA feels that this is a regional issue, which should be dealt with within the regional SDO.

However, if and when the services and interfaces for electronic communications networks, services and associated facilities and services; in accordance with Article 17 of Directive 2002/21/EC have been identified and listed 3GPP would be happy to assist identifying and listing specifications relevant for these services and interfaces.

ACTIONS:

None

Dates of next meeting:

3GPP TSG SA#23: 15 - 17 March 2004, Phoenix
3GPP TSG SA#24: 7 – 9 June 2004,
