## 1. Overall Description:

3GPP thanks ETSI TISPAN for the LS on upcoming work on NGN and looks forward to working with ETSI TISPAN on the development of this functionality. Given the criticality of this work for the industry, 3GPP believes that it is desirable to take concrete steps to ensure a successful collaboration between ETSI TISPAN and 3GPP on use of IMS as a component of NGN.

It was agreed that 3GPP CN would support the TISPAN decision to use IMS as a component of NGN. 3GPP CN supports the necessary enhancements to IMS within 3GPP carried out under the normal 3GPP Work Item process. 3GPP work items for NGN harmonisation would need to be created and approved as per the normal 3GPP process. Note that while this liaison statement specifically mentions IMS, many of the criteria identified below could apply to the reuse of other 3GPP specifications if they prove relevant to the NGN work, and ETSI TISPAN so desires.

3GPP would be willing to participate in any workshop to discuss the NGN requirements, architecture, and timelines.

3GPP CN asks ETSI TISPAN to consider the following points:

1. 3GPP understands that ETSI TISPAN will develop documents referencing 3GPP IMS specifications. 3GPP CN would like to minimise the number of such differences from 3GPP specifications, particularly if such enhancements and changes would be generally useful to IMS.
2. Work within 3GPP to address any enhancements required for NGN is expected to be driven by 3GPP member companies (many of which are also members of ETSI TISPAN). This work is subject to the standard 3GPP work item definition and approval process. 3GPP intends to address this topic expeditiously.
3. 3GPP TSG CN should be the single point of contact with IETF in addressing extensions to IETF protocols for the support of IMS.
4. ETSI TISPAN is requested to give a presentation of preliminary NGN requirements, architecture, and timelines. The following is a list of suggested items to be addressed by a workshop:
  - What is TISPAN planning to do?
  - What are TISPAN requirements?
  - What are expected TISPAN changes to IMS?
  - 3GPP reactions to these changes

- Document structure discussions
- Work programmes

## **2. Actions:**

### **To SA group.**

#### **ACTION:**

3GPP CN asks 3GPP SA to review the attached liaison and send the liaison to TISPAN with the following action.

"3GPP requests the 3GPP CN or SA management to organise such a workshop in conjunction with ETSI TISPAN."

## **3. Date of Next TSG-CN Meetings:**

TSGN \_24

2<sup>nd</sup> – 4<sup>th</sup> June 2004

Seoul, Korea
