|---|---|---|
| ***Reason for change:*** | ⌘ | Table A.1 - "Applicability of SSs to telecommunication services" incorrectly lists several supplementary services as having applicability to Voice Group Services. |

Specifically, the following supplementary services are shown to have applicability to Voice Group Services:
- CD
- CLIP
- CLIR
- COLP
- COLR
- UUS
- CFU
- CFB
- CFNRy
- CFNRc
- CW
- HOLD
- MPTY
- CUG
- BAOC
- BOIC
- BOIC-exHC
- BIC
- BIC-Roam

| | |
|---|---|
| | • ECT<br><br>These interactions are qualified with Note 6, which states, "The SS is only applicable for dispatchers. For service subscribers the service is not applicable. More detailed descriptions see 3GPP TS 24.068 and 3GPP TS 24.069."<br><br>This is incorrect for the following reasons:<br>Dispatchers in a VBS/VGCS call do not use the VBS/VGCS teleservice. **Only VBS/VGCS *service subscribers* use VBS/VGCS teleservice.**<br><br>Dispatchers for VBS/VGCS calls are generic telephony users, and can be defined as PABX, ISUP trunks, or any other type of user.  In the event a dispatcher is a GSM subscriber, the VBS/VGCS call will be originated by or terminated to that subscriber using TELEPHONY teleservice only, as described in 24.008.  The VBS/VGCS teleservices as defined in 44.068 and 44.069 do not govern origination/termination protocols of dispatchers.<br><br>Since the SS in question only apply to dispatchers, and since dispatchers use only TELEPHONY teleservice, then it is actually not correct to list interactions for these SS in the Voice Group Services column of the table.  The interactions listed in the Telephony column are sufficient. |
| *Summary of change:* ⌘ | In table A1 the applicability of these SS to TS 91 and 92 is removed |
| *Consequences if not approved:* ⌘ | HLR and VLR producers, in order to be specs compliant, needlessly design subscriber databases to allow provisioning for these invalid SS interactions with Voice Group Services (for example, CFU and Voice Broadcast Service).<br><br>The end consequence is wasted design effort for the equipment producer, and wasted capacity and computing resources for the service providers. |

| MSP | Yes | | Yes | Yes | | Yes | Yes | | Yes | Yes |
| MC | Yes | Yes | | | | Yes | Yes | | - | - |

NOTE 1: The applicability of Call Waiting refers to the telecommunication service of the active call and not of the waiting call. The incoming, waiting, call may be of any kind.

NOTE 2: If the served mobile subscriber has a call on hold, she may set up another call using the same or a different telecommunication service.

NOTE 3: The SS is applicable, but generally will not be invoked.

NOTE 4: For the purposes of applicability of supplementary services, the Alternate speech/unrestricted data (BS61) and speech followed by data (BS81) belong to the BS-group of the equivalent data service.

NOTE 5: Both the SMS service centre and the mobile destination can be reached by PNP numbers.

NOTE 6: Void~~The SS is only applicable for dispatchers. For service subscribers the service is not applicable. More detailed description see 3GPP TS 42.068 [26] and 3GPP TS 42.069 [27].~~

NOTE 7: Void.~~The interaction of VBS and VGCS with UUS is not defined yet in the protocol (TS 24.068 and  TS 24.069).~~

NOTE 8: Applicability of SMS PTP to CNAP is for further study.

NOTE 9: The network shall apply a specific or the default priority level to emergency calls. There is no possibility to change this priority by the subscriber. Pre-emption of an on-going emergency call is not possible.

NOTE 10: The CCBS supplementary service is only applicable for dispatchers. If a new terminating p-t-p call is set up to a dispatcher who is busy because of an active VGCS/VBS call, it should be possible to allow the calling subscriber to apply the CCBS service. If the dispatcher initiates a VGCS/VBS call and the called group/broadcast ID has been active, then the dispatcher should be connected to the ongoing VGCS/VBS call. For VGCS/VBS call to busy dispatcher, the CCBS is not applicable. For a detailed description see 3GPP TS 42.068 [26] and 3GPP TS 42.069 [27].
