1 Overview

This LS is intended in response to the referenced LS and to advise both 3GPP and 3GPP2 of recommendations being made by the OMA TP to the OMA BoD regarding the public availability of OMA Work Programme information.

2 Proposal

This LS is notice of intermediate action by the OMA TP in response to action requested by 3GPP2 TSG.

3 Requested Action(s)

OMA TP thanks 3GPP2 TSG-S for the referenced LS and for calling our attention to the problem of accessibility of WISPR information.

In a related contribution, OMA member Sprint proposed that all OMA WISPRs be made public. During the discussion of that contribution, the TP agreed to recommend to the OMA BoD that as much of the OMA Work Programme information as possible be made public. However, final approval of this recommendation is the authority of the BoD.

4 Conclusion

Again, we thank 3GPP2 TSG-S for bring these concerns to our attention. We hope that the BoD will respond favourably to our recommendation but both 3GPP and 3GPP2 will be notified when any changes are finally approved and of their effective date.
