1 Overview

This liaison provides an update on our recent change liaison exchange on access to work programme data.

2 Proposal

Following our liaison statement in OMA-TP-2004-0328-OMA_Work_Programme_Info_Avaiability-041001 issued on the 1st October 2004, changes have now been made and implemented.

It has now been agreed to make the WISPR (Work Item Status Planning Report) documents public.

Additionally it has been agreed to make the full version of the OMA Work Programme public, which may be found at <http://www.openmobilealliance.org/tech/workprogram.htm>.

This liaison also communicates to 3GPP and 3GPP2 the links to the OMA pages providing updates and information on collaboration and inter-dependencies between our organisations. The links may be found at:-

4 Conclusion

Making the WISPRs and full Work Programme information public will enable increased and improved cooperation between our organisations, and together with the overview collaboration pages OMA looks forward to being able to better coordinate our technical activities.
