

3GPP TSG SA WG3 Security — S3#17

S3-010030

27 February - 02 March, 2001

Gothenburg, Sweden

TSG-SA WG 1 (Services) meeting #11
Capetown, SA 6th to 9th February 2001

TSG S1 (01) 159
Agenda Item: 5

Liaison Statement

From: TSG-S1

To: TIPHON, SA2, SA

Cc:

Subject: **Convergence of QoS approaches in 3GPP and TIPHON**

Contact: Anne Even, anne.even@francetelecom.com, +33 1 45 29 63 20

S1 thanks TIPHON for their liaison on QoS. We endorse your proposal to have a common approach on QoS in IP based networks. As the document sent by TIPHON is also an architectural document on QoS, we would like that S2 express their view on this subject as well and on the work that can be done. From our point of view, there is a concern about the time needed to achieve convergence. As the deadline for R4 is March 2001 this is considered too short time, so we will begin the work in R5 and target the completion in R6.
