1. Overall Description:

3GPP TSG SA1 thank TSG T3 for the LS received on the topic **"*New features for SAT originated SMS*"**, found in T3-010275. In this LS, T3 asks SA1 to examine a proposal to standardise a new feature, called ***"Toolkit originated SMS".***

Having discussed this issue, SA1 cannot understand the service requirement for such a feature, and in the absence of any support for the feature, propose that no further work should be done on the topic.

2. Actions:

None.
