Attachments:**1. Overall Description:**

TSG SA1 thanks TSG SA2 and TSG T2 for their Liaison Statement S2-013445 and T2-010905 on VASP MMS Connectivity .

TSG SA1 would like to confirm TSG SA2 assumption that the necessary OSA SA1 service requirements for the support of MMS will be in place at some stage for post-Rel5. The planed OSA support is to be considered for enhancement to provide full-size support of maintenance and control (e.g. sending, receiving, deleting, rejecting of MMs or creation of multicast groups).

Further TSG SA1 acknowledges the work T2 is currently working on proposals for a protocol to be supported on the MM7 interface. The requirements connecting a VASP to the Relay Server were agreed in TSG SA #14 in December 2001. TSG SA1 plans to considered the MMS/MM7 requirements as part of OSA for Release6.

2. Actions:

ACTION: T2 and SA2 are requested to inform SA1 of any requirements they may have in this area.

3. Date of Next CN5 Meetings:

Title	Date	Location	Country
SA1 SWGs	8 – 12 Apr 02	Sophia Antipolis	France
SA1#16	13 – 17 May 02	Victoria	Canada
SA1 SWGs	8 – 12 Jul 02	t.b.d.	Italy
SA1#17	12 – 16 Aug 02	Durango, Colorado	North America
SA1 SWGs	14 - 18 Oct 02	t.b.d.	Taiwan
SA1#18	11-15 Nov 02	t.b.d	Korea
