## Liason Statement

SA3-LI would like to thank SA4 for the information provided by the WG chairman regarding the AMR Wideband technical specifications. While SA3-LI is still assessing the potential additions needed for lawful interception, we have determined that the impact of any changes should not cause problems to the SA4 specifications. [Any impact on lawful interception should be handled within the LI - specifications.](#)

Next SA3-LI Meeting: Apr 9-11, 2002 in the US.
