1. Overall Description:

T2 thanks SA3 for their LS and their effort on identifying potential use cases for subscriber certificates in 3GPP systems.

The topic of subscriber certificates may be of great interest to T2 in the context of authorization of VASPs to send messages only to subscribers to VASs. However, T2 is not sufficiently aware of the work being done in this area.

2. Actions:

To SA WG3 , SA WG1 groups.

ACTION: T2 kindly requests the recipients to update us on the work that has been done so far regarding subscriber certificates and to bring to our attention any documents or specifications that will deal with this issue in the future.

3. Date of next T2 Meetings:

T2#18	12-16 Aug 2002	Velen, Germany
T2#19	18-22 Nov 2002	Korea
