1. Overall Description:

Diameter protocol has been chosen for Rf and Ro interfaces to achieve accountings transfer for off-line and on-line charging processes.

These interfaces are described in draft TS 32.225 v150 (SP-020327).

SA5 would like to know whether or not the security provisions of the Diameter base protocol are sufficient for this charging application.

2. Actions:

To SA3 and CN4 groups.

ACTION:

SA5 asks SA3 and CN4 to confirm to SA5 whether or not the Diameter protocol offers sufficient security provisions to be implemented in Release 5 for charging in an intra-operator network.
