1. Overall Description:

The 3GPP SA4 working group received and discussed the liaison statement from OMA DRM+DL (S4-030357). We are excited to cooperate with the OMA DRM+DL group to proceed toward the creation of an interoperable protected content format suitable for continuous media.

The requirements submitted are complimentary to SA4's goals and current work plan. PSS Release 6 will include a standard container format download and streaming. OMA DRM+DL's requests to add support for rights protected content in the container format fit well into SA4's objectives for Release 6. The OMA DRM+DL schedule for OMA DRM 2.0 is also aligned with SA4's Release 6 time line.

SA4 will allocate time for discussion of member inputs in subsequent meetings. SA4's goal is to have a draft specification completed for the September SA4 meeting.

2. Actions:

To OMA DRM+DL group.

ACTION: 3GPP SA4 asks OMA DRM+DL group to continue toward the specification of a DRM standard targeted for the mobile environment.

3. Date of Next TSG-SA4 Meetings:

TSG-SA4 Meeting #27   7th – 11th July 2003   Munich, Germany.

TSG-SA4 Meeting #28 1st – 5th September 2003   Location TBD.
