Information:

1. Discussion

TISPAN is pleased to endorse the Workshop on "IMS over Fixed Access" as proposed to be held on 30-31 March 2005 and to takes note of the considerations given in your liaison. The offer to request SA2 Management to organize the Workshop is welcome.

We understand that the participation to the Workshop is open without any membership conditions, besides the ETSI, 3GPP Organisation Partners and any other interested SDO members.

We also understand that, in addition to the 3GPP or TISPAN presentations, contributions from individual organisations or SDOs are also welcome and encouraged, provided they address "IMS over Fixed Access" issues.

We expect that the agenda will be arranged so as to cover the following aspects:

- status of 3GPP Release 6 and Release 7 IMS-related aspects,
- status of TISPAN_NGN Release 1 work,

- review of the status of the NGN-IMS issues raised in the June 2004 Workshop,
- identification of areas requiring coordinated resolution, and,
- future coordination/cooperation arrangements.

We feel that most of the time should be allocated to discussions on the basis of the input material with some presentations as offered, and the technical items that TISPAN has specifically identified as requiring more detailed discussion include:

- Backbone Network issues and Interconnection schemes
- IMS Specifications endorsement (Architecture, Requirements, SIP Profile ...)
- Services and Supplementary services specification
- User identification
- Authentication (ISIM/Login-password/EAP) and Security (IPsec/TLS) mechanisms
- "Gq" requirements
- QoS Classes,
- Audio and Video Codecs use,
- Emergency communications and Legal interception requirements,

2. Actions

SA2 (on behalf of the 3GPP) to coordinate the preparation of the Workshop Agenda with TISPAN and the other interested OPs.

SA2 to coordinate with the concerned 3GPP Working Groups the issues intended to be addressed in the Workshop.

SA2 to ensure that the 3GPP Organisations Partners are all invited and informed of the above range of issues on the agenda.

TISPAN looks forward to a fruitful co-operation with the 3GPP (and other interested SDOs) to meet the "IMS over Fixed Access" convergence objectives.

3. Dates of future TISPAN meetings:

For your information:

<i>Meetings</i>	<i>Dates</i>	<i>Location/Host</i>
TISPAN#05bis	28 Feb – 4 March 2005	Sophia Antipolis / ETSI
TISPAN#06	9 – 13 May 2005	Sophia Antipolis / ETSI
TISPAN#06bis	6 – 10 June 2005	Sophia Antipolis / ETSI tbc
TISPAN#07	11 – 15 July 2005 tbc	Sophia Antipolis / ETSI
TISPAN#08	12 – 16 September 2005	Ljubjana/Slovenia
TISPAN#08bis	24 – 28 October 2005	Sophia Antipolis / ETSI
TISPAN#09	5 – 9 December 2005	Sophia Antipolis / ETSI

Note – Additional Ad-hoc Working Group meetings may be scheduled to address specific areas needing accelerated progress or issues which require urgent resolution.
