Subject: Transfer of Location Services to 3GPP

T1P1 would like to indicate its intention to transfer the responsibility for GSM Location Services into 3GPP. The transition point will be after resolution of outstanding open issues and completion of GSM Release 98, which is intended to occur at SMG#31. T1P1 will also complete the mirror Release 99 Change Requests during the completion of Release 98. Following the transition, 3GPP will be responsible for LCS in all subsequent releases. Note that T1P1 may still continue to provide Location Services input to 3GPP for GSM Release 98 and ongoing releases.

Best regards,
