Title:	**Work distribution between TSG S1 and TSG T2**

_____

TSG S1 understands that TSG T2 has created a group to consider services in the following scenarios:-

- Report on Services over IP

- Report on VHE/SAT/MExE scenarios

- Review of end to end services

TSG S1, in its proposed terms of reference is responsible for the generation of service requirements and all Stage 1 specifications, and wishes to ensure that there is no overlap in the work being performed by the two groups. TSG S1 invites TSG T2 to comment on the Terms of Reference of TSG S1. TSG S1 would welcome TSG SA's comments on the scope of the work being performed within the two groups.

TSG S1 would like to become involved in the process of the reports being generated, and from the reports, TSG S1 shall specify any new service suggested requirements which it considers may be required.
