

TSG-T#3 (99)083

Status Report T3

Dr. Klaus Vedder
Chairman T3

TSG-T #3
Yokohama, 22-23 April 1999

Documents

- Updated TSG-T WG3 Work Items (TP-99084)
- 3GPP 21.11, version 2.0.0 (TP-99085)
 - for approval by TSG-T as version 3.0.0
- Two Liaison Statements from T3 #3
 - TP-99062 on availability of GSM specifications to 3GPP
 - TP-99063 on SMG9 generics work

Meetings

- TSG-T3 #3
 - 17 - 19 March 1999, Espoo, hosted by Nokia
 - 13 delegates, 8 countries (9 Europe, 4 Japan)
 - chaired by Dr. Maringer (T-Mobil, T3 Vice-chairman)
meeting report by N. Barnes (Motorola)

- TSG-T3 #4
 - 19 - 21 April 1999, Tokyo, hosted by NTT DoCoMo
 - 35 delegates, 11 countries
(16 Europe, 15 Japan, 2 Korea, 2 USA)

Deliverables

T3 #4 agreed to split the work into the following deliverables

- "USIM and IC card requirements"
 - requirements of the Universal Subscriber Identity Module and the IC card for 3GPP (UICC)
 - Rapporteur: G. Maringer, T-Mobil

- "USIM characteristics"
 - USIM specific command parameters, file structures, contents of data-fields, application protocol and security functions
 - Rapporteur: Y. Honda, Nippon Ericsson

Deliverables II

- "UICC physical and logical characteristics"
 - electrical and physical interface of IC card and terminal, logical characteristics of a telecommunications IC card
 - core standard for UICC (and others)
 - Rapporteur: R. Lindholm and P. Vestergaard, Nokia
- Revised Work Item descriptions
 - for approval at this meeting (TP-99084)
- First deliverable available for approval:
3GPP 21.11 "USIM and IC card requirements"

Other Issues

- Compatibility between 3G terminals and GSM SIM
 - UMTS 30.01 (3.6.0): "... requirement that 3G terminals support existing (Phase 2) SIMs (at three volts, but not five volt SIMs), ..."
 - this requirement is under discussion in SA3 and SA1
- LS to SA1 (cc ETSI HF) on TP-99073
 - USIM can accomodate information on special needs
 - SA1 is asked whether there are service requirements
- LSs to TSG-T from T3 #3
 - TP-99062: 3GPP 21.11 refers to GSM specifications
 - TP-99063: (partially) covered by T3 work item "UICC physical and logical characteristics"

Meeting Calendar

- Ad hoc meetings
 - 27 - 28 May 1999, Copenhagen, hosted by Nokia
 - "USIM characteristics"
 - "UICC physical and logical characteristics"
- T3 #5 (co-located with SMG9 #18)
 - 31 May - 02 June 1999, Åland, hosted by Nokia
- T3 #6 (?)
 - 14 - 16 June 1999, Miami, hosted by Nokia Inc.
- T3 #7
 - 05 - 07 July 1999, Lund, hosted by Ericsson

Decisions Required

- Approval of revised TSG-T WG3 work items (TP-99084)
- Approval of 3GPP 21.11, version 2.0.0 (TP-99085) to be raised to version 3.0.0
