Subject: **Enhancement of CPHS Network Operator Name Feature for 3G Rel-4**

(Contact: Preet Ahluwalia (+1-512-372-5157, <u>ahluwalia@tri.sbc.com</u>)

T3 thanks CN1 for their response Tdoc N1-010208, "Response to LS – Enhancement of the
CPHS Network Operator Name Feature for 3G Rel-4".

The original LS from T3 (Tdoc T3-0100630 "Enhancement of the CPHS Network Operator Name
Feature for 3G Rel-4") addressed the issue of enhancing the operator name display functionality.

In response to your LS, and discussions at a recent 3GPP TSG SA workshop on "UE in idle
mode"
which was held in Helsinki, Finland from 7 – 8 February 2001, the network selection aspect of the
proposed functionality has been removed and changes have been agreed within T3 for operator
name string functionality without the roaming indicator status requirement.
