TSG-T3 would like to thank TSG-T1 for their LS contained in Tdoc T3-010129 (T1-010105).

TSG-T3 has reviewed the attached CR to TS 34.108 R99 and agreed on its content.

During this careful review, the following editorial mistakes were spotted :

- in section 8.1.2.3.3, the following sentence is doubled :

"Based on the received RAND parameter The test USIM calculates the RES, CK, IK and XMAC parameters according to subclause 8.1.2.1 (step 1 to 4)."

- the abbreviation "SS" (standing for "System Simulator") is used several time. However this abbreviation is not defined in TS 34.108.

Best regards,

TSG-T3
