## TERMS OF REFERENCE

### Technical Specification Group Terminals Working Group 1: ~~Mobile-Station-User Equipment~~ Testing

#### **Responsibility**

The task of 3GPP TSG-T1 is the drafting of the ~~mobile-station~~User Equipment conformance testing specifications for the 3GPP standards. The definition of "~~mobile-station~~User Equipment" is given in ~~TS 23.101~~ 'General UMTS Architecture'.

#### **Work Plan**

The work plan initially includes :

~~RF performance conformance testing of Measurement procedures for~~ FDD

~~RF performance conformance testing of Measurement procedures for~~ TDD

~~RRM conformance testing of FDD~~

~~RRM conformance testing of TDD~~

~~protocol-UTRA and NAS Protocol testing~~

~~Testing of Inter RAT procedures, UTRA to GERAN only~~

~~some-s~~Service capability testing (for services where 3GPP core specification exist)

~~Formal description of protocol test cases using TTCN~~

~~Identification of EMC requirements referring to international standards is a task of TSG-T1.~~

#### **Working Groups**

~~EMC sub-group~~

- RF ~~measurements~~ sub-group

- Signalling sub-group

#### **Liaisons**

TSG-T1 has direct liaisons with ~~all groups within 3GPP, SMG7, TSG-SA, TSG-CN, TSG-RAN, TSG-T2, TSG-T3, ARIB-WG27 and if needed working groups reporting to these groups.~~

TSG-T1 has direct liaisons with external groups on the 3GPP external liaison list (<http://www.3gpp.org/management/liaisons.htm>).
