1. Overall Description:

T3 thanks GERAN for its liaison statement stated above.

Regarding the actions requested to T3:

- 1) To produce CRs for the closing of previous releases.
- 2) To move the terminal profile information from 51.010-2 to 11.10-4.
- 3) To propose how to specify the interaction between the SIM toolkit and the network.

Regarding actions 1 and 2, according to TSG-T#18 decision, the CRs were sent to the T3 email reflector and got informal e-agreement (at the same time they were posted to the T reflector), and then the CRs were submitted to GERAN#13 for formal approval.

Regarding action 3, T3#26 discussed the issue and 2 companies volunteered to submit the appropriate CR at the next GERAN meeting. As the next GERAN meeting will take place prior to the next T3 meeting, T3 proposes to have a similar process, that means get e-agreement on the T3 reflector (CC: T reflector) and the volunteering companies will then submit the CR to GERAN#14.

T3 looks forward to being kept informed about the developments in this area.

2. Actions:

To GERAN:

ACTION: approve the CR related to action 3 submitted to GERAN

To TSG-T:

ACTION: agree on the above process

3. Date of Next TSG-T3 Meetings:

TSG-T3 Meeting #27	20th – 23rd May 2003	Japan
TSG-T3 Meeting #28	19th – 22h August 2003	Singapore
