TSG-Terminals meeting #1   *TSGT#1(98)072*
Sophia Antipolis 7th - 8th December 1998   Page 1

Agenda Item: **20**

Source: **TSG-Terminals (Convenor: Dr Sang-Keun PARK (Korea))**

Title: **Results of TSG-T#1 meeting**

Document for: **Discussion, Decision**

_____

Tdoc SMG9 99p007

3GPP TSG meeting #1
Sophia Antipolis 7- 8 Dec 1998

TSG-Terminals

Results of TSG-T#1 meeting

Convenor: Sang-Keun PARK (Korea)

3GPP TSG meeting #1
Sophia Antipolis 7- 8 Dec 1998

Creation of TSG-T Working Groups

- **WG T1 – Mobile Terminal Conformance Testing**

- **WG T2 – Mobile Terminal Services & Capabilities**

- **WG T3 – USIM**

3GPP TSG meeting #1
Sophia Antipolis 7- 8 Dec 1998

Appointment of WG Convenors

- WG T1 – Remy Thomas (France Telecom)

- WG T2 – Kevin Holley (BT)

- WG T3 – Klaus Vedder (G&D)

TSG and TSG WG meeting schedule

WG-T1#1	1-3 Feb 99	ETSI
WG-T2#1	27-29 Jan 99	ETSI
WG-T3#1	25-27 Jan 99	ETSI
WG-Tx#2	Feb 99 (TBD)	
TSG-T#2	03/99 in USA (joint TSG)	

3GPP TSG meeting #1
Sophia Antipolis 7- 8 Dec 1998

Action T1/1: ARIB provides INPUT docs in Jan '99 (Nagata - DoCoMo)

ETSI input docs identified by Ericsson (in Doc 27) SMG4 (in Doc 29)

Action T1/2: put all docs on the server for next meetings

TERMS OF REFERENCE
TERMINALS
Technical Specification Group

Background

One of the key objectives of third generation systems is that they should aim at providing services anywhere, anytime. This translates into requirements for the 3GPP terminals to roam freely between networks and to be able to circulate freely around the globe.

Terms of reference

The technical specification development work within 3GPP is accomplished by Technical Specification Groups (TSGs) according to the principles and rules contained in the Project reference documentation (Partnership Project Description , Partnership Project Agreement, Partnership Project Working Procedures).

In particular the TSGs report to the Project coordination Group (PCG), and may organize their work in Working Groups and liaise with other groups as appropriate.
Each TSG has the responsibility to develop, approve and maintain the specifications within its terms of reference.

The TSG **Terminals** (TSG-T) is responsible for specifying the Terminal Equipment interfaces ensuring that terminals based on the relevant 3GPP specifications meet the 3GPP objectives.

Specifically it has a responsibility for :
- Terminal Equipment ~~radio~~ performance specifications
- USIM and its interface specifications
- Management of the work items placed under its responsibility

More specifically, TSG-T will address the following areas of work :
- Service capability protocols,
- Messaging,
- Services end-to-end interworking,
- USIM to Mobile Terminal interface and functionality,
- Model/framework for terminal interfaces and service (application) execution
- Conformance test specifications of terminals, including radio aspects,
- Multi-mode terminals

Glossary of terms
