Platform Development Director  
Sierra Wireless

Object: Nomination of Candidate for 3GPP TSG GERAN WG3 Chairman

Dear Susanna,  
Dear Ingbert,

Sierra Wireless Company, Member of ETSI, is proud to maintain his consultant Mr Remi Lascoux as candidate for the upcoming election of the 3GPP TSG GERAN3 new chairmanship.

Remi has been actively contributing over the past years to the GERAN WG3 evolution, and would continue to do so if re-elected as chairman for this group. In addition, Remi has always maintained an operational role in Sierra Wireless' terminal testing activities.

Furthermore, as current chairman of GERAN WG3, Remi is trained to comply with all applicable antitrust/competition laws and regulations while acting in his capacity as 3GPP TSG GERAN WG3 Chairman

We are therefore convinced that Remi would successfully lead the 3GPP TSG GERAN3 new activities and positively contribute to the group outcomes. Sierra Wireless will provide all the necessary support to Remi, if re-elected, to ensure he can efficiently perform this role.

Sincerely,

Frederic Lejay
