## Nomination and support for 3GPP RAN Vice Chairman Candidate

Dear Madam/Sir,

As an indication of its continued commitment to 3GPP and TSG RAN, China Mobile Communications Corporation (CMCC, as CCSA member) is pleased to nominate Mr. Hai Tang as candidate for the 3GPP TSG RAN Vice Chairman election taking place in March.

Mr. Hai Tang started his career in mobile communication in the year 2000. He turned to standardization and began attending 3GPP TSG RAN WG1 meetings since the beginning of 2005 as CATT's main delegate in RAN1. At the beginning of 2008, he joined China Mobile Communications Corporation and continued his role as the main delegate and coordinator in TSG RAN. He has attended most RAN Plenary meetings since 2005 and was elected as RAN Vice Chairman in March 2009. During the years of standardization work, Mr. Hai Tang has made key contribution for a harmonized and competitive LTE TDD/FDD system.

CMCC is fully committed to recommend Mr. Hai Tang as a candidate of TSG RAN Vice Chairman, and we believe he will continue to contribute promoting 3GPP standard globally.

Best regards,

Yuhong Huang  
Deputy General Manager  
China Mobile Research Institute
