Subject: Nomination of Diana Pani as candidate for 3GPP TSG RAN WG2 Vice-Chair

Dear Ms. Kooistra and Mr. Chung,

InterDigital is pleased to nominate Ms. Diana Pani as a candidate for a second term as 3GPP TSG RAN WG2 Vice-Chair. Diana represents InterDigital Communication LLC, a member of ETSI.

Diana has been attending 3GPP TSG RAN WG2 as a regular participant since August 2009, where she has actively contributed to a number of features related to UMTS Releases 7 to 12 and LTE Releases 9 to 12. Since August 2013, Diana has held the position of 3GPP TSG RAN WG2 Vice-Chair, during which time she has demonstrated the ability and technical skills required to lead 3GPP standardization work independently, in a consensus and timely driven manner.

Diana Pani graduated from McGill University in Electrical Engineering with a specialization in Telecommunications in 2006. Since joining InterDigital in 2004, she has worked on a number of assignments related to UMTS and LTE product design, research and development and standardization. She currently leads InterDigital's delegation to 3GPP RAN WG2.

Diana is widely recognized as an expert in 3G and 4G cellular radio access, most notably L2/L3 protocol design as well as L1 system design. We firmly believe that she is a suitable candidate to continue for a second term as 3GPP RAN WG2 Vice-Chair. InterDigital is committed to supporting Diana in this role by ensuring that she is trained to comply with all applicable antitrust/competition laws and regulations.

Best Regards,

Christopher Cave
